

Instructions for Last Minute Transportation Alternatives Application Submissions - May 5

- For last-minute applications, applicants can now submit their applications without an AZGeo account. It is important to note that if you do not have an AZGeo account you will not be able to save your progress in the online form and will need to fill it out in one sitting. You will still need an AZGeo account in order to retrieve, revise and submit your final application.
- To facilitate completing your application in one sitting, prepare a Word document of all application questions, and have all required documents to upload ready to go (cost estimate form, COG/MPO Letter of Support, Local Match Letter of Commitment, etc..). All application questions can be found in the TA Guidebook (pages 12 - 22) on the [Transportation Alternatives website](#).
- Use this link to access the TA application (with or without an AZGeo account):
<https://experience.arcgis.com/experience/a41d669084ed4bb3b04bc85bccdf6830>
- Applications are due by May 5 and will go through ADOT's screening review process. You will receive feedback on your application and resubmit the application during the "revise and resubmit period", which ends on May 27.
- **All applicants must request an AZGeo account if they have not already done so. You will only be able to access your application during the "revise and resubmit" period through the AZGeo portal; your original submission will be saved through this portal.**
- **The last day to request an AZGeo account is Tuesday, May 20, 2025. Please do no wait; request your account as soon as possible.**
- Final, revised applications are due on May 27 via AZGeo, and, as noted above, applicants will need an AZGeo account to retrieve, revise and submit their final application.
